1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claims 8-12 recite stick-type connected nails having a plurality of nails arranged in parallel and in an equidistance manner. There is a connecting band made of paper or a resin glued to a shaft portion of the nails. A plurality of sheets of the stick-type connected nails are loaded in a nail magazine such that the vertical position of respective heads of the connected nails are offset. The connecting band is in a position such that the heads of the adjacent connected nails, in a lower position, contact as when the plurality sheets are loaded in the magazine in a superposed manner.... Claim 10 further recites that the upper band is glued to both sides of the nails and the lower band is glued to at least one side of the nails.. Claim 11 further recites that the upper band is glued to one side of the nails and the lower band is glued to the other side of the nails.. Claim 12 further recites that the upper band and the lower band are glued to the same side of the nails and the lower band is glued to one side of the nails.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
